FOR IMMEDIATE RELEASE

2W Technologies, INC. Achieves Microsoft Solution Partner Recognition for Data & AI

Pewaukee, WI – March 27, 2024 – 2W Technologies, INC., a leading provider of strategic technology solutions, is proud to announce that it has achieved the prestigious Microsoft Solution Partner designation for Data & AI. This recognition is a testament to 2W Technologies' commitment to delivering exceptional data and artificial intelligence solutions that empower businesses to harness the full potential of their data.

As a Microsoft Cloud Solutions Provider, 2W Technologies has demonstrated excellence in implementing and managing Azure, Business Intelligence, and Modern Workplace solutions. The addition of the Data & AI competency to our existing designations for Infrastructure, Modern Work - SMB, Modern Work - Enterprise, and Security showcases our comprehensive expertise across the Microsoft ecosystem.

"Our team is thrilled to receive the Solution Partner recognition for Data & AI," said Mark Jamieson, President/CEO of 2W Technologies. "This achievement reflects our relentless pursuit of knowledge and our dedication to helping our clients succeed in today's data-driven world. We are committed to providing innovative solutions that not only meet but exceed our clients' expectations."

2W Technologies' success in achieving this designation is a direct result of our deep understanding of data analytics, machine learning, and cognitive services. Our solutions are designed to be effortless, dependable, and sensibly innovative, ensuring that technology is accessible and beneficial to all our clients.

"We believe that technology should simplify, not complicate, our clients' operations," added Jamieson. "Our approach to Data & AI is to make it as seamless and effective as possible, enabling businesses to make informed decisions and stay ahead of the competition."

As a distinguished Epicor Platinum Elite partner, 2W Technologies also excels in the deployment and consulting of Epicor Kinetic ERP systems, further enhancing our ability to provide end-to-end business solutions.
