

## **PRESS RELEASE**

FOR IMMEDIATE RELEASE

2W Technologies, INC Announces Acquisition of Compasys, INC.

**Pewaukee, WI – October 1, 2018** – 2W Technologies, INC today announced that it has acquired Compasys, INC. The combination of technology and expertise from these two long term Epicor partners will serve as the foundation for 2W Tech to further expand their Epicor footprint in the US. 2W Tech has been serving as an Epicor certified partner for over 25 years and provides a full line card of IT and cloud services as well.

CEO and President of 2W Technologies, Mark Jamieson, has been making several moves to expand the business over the last couple years. “We have been a dedicated Epicor partner since the induction of 2W Technologies. We have spent time restructuring our business so that we can offer our clients the IT support they need without having to bring in an additional partner. I think the Compasys clients will be impressed with the services and overall value 2W Tech offers. Between 2W and Compasys, our combined organization offers nearly a half century of ERP and Epicor experience. I am excited for this next chapter in our organization and for the additional Epicor expertise Compasys brings to the table.”

President of Compasys, Dave Thomas, knew the time was right for both his organization and his clients to consider a new path for the business. “Manufacturers are being driven by the digital transformation and the days of operating your business in silos are over. We served as Epicor specialists for over 20+ years, but we can’t help to maximize value for our clients without offering IT services as well. By joining forces with 2W Tech, our clients will be able to not only continue to get the Epicor support they need, but also get visibility to IT services and other emerging technologies manufacturers are trying to figure out daily.”

As part of the acquisition, Dave Thomas will bring his 25 years of Epicor and ERP experience to join the 2W Tech leadership team as the Director of Epicor Services. Along with the addition of the new clients, 2W Technologies, INC will add the experience and expertise of Compasys most senior Epicor Consultants. 2W Tech will begin transitioning the clients over immediately and are working to make this process seamless for all involved.

### **About 2W Technologies, INC**

For over 25 years, 2W Technologies has helped hundreds of clients across North America maximize their Epicor and IT Services investments. They have offices located in Milwaukee, Chicago, Ohio, Indiana, and Eastern Pennsylvania, but have Consultants expanding their footprint even further than those areas in the Midwest and Northeast part of the US. Outside of being a Certified Epicor ERP and Microsoft Gold partner, they also specialize in Managed Services and various types of Infrastructure and cloud solutions.
