

PRESS RELEASE
FOR IMMEDIATE RELEASE

2W Technologies, INC Announces Acquisition of MIS Consulting & Sales, Inc.

Pewaukee, WI – May 19, 2022 – 2W Technologies, INC today announced that it has acquired MIS Consulting & Sales, Inc. The combination of technology and expertise from these two long-term Epicor partners will serve as the foundation for 2W Tech to further expand their Epicor footprint in North America. 2W Tech has been serving as an Epicor certified partner for over 30 years and provides a full line card of IT and cloud services.

President and CEO of 2W Technologies, Mark Jamieson, is excited about this latest move to expand the business. “We have been a dedicated Epicor partner since the induction of 2W Technologies. As we have grown and evolved, Epicor has remained a core foundation in our offerings. In addition, we offer our clients the IT support they need without having to engage an additional partner. I believe the MIS clients will be impressed with 2W’s extensive number of products and services. Not to mention the level of customer service and overall value 2W Tech offers. Between 2W and MIS, our combined organization has over 60 years of ERP and Epicor experience. I am excited for this next chapter in our organization and for the additional Epicor expertise MIS brings to the table.”

Kendra Kalimanis, President of MIS Consulting, will continue with the larger organization as a Sr Vice President. “MIS has been an Epicor specialist for over 30 years and by joining forces with 2W Tech, our clients will continue to get the excellent Epicor support they have become accustomed to as well as gain access to the IT services and emerging technologies they need, all from a single firm. We have been working with 2W for some years now and appreciate how they have grown and expanded their products and services. This is a great opportunity for both the MIS team and our clients to enhance their Epicor and IT experiences in this next chapter with 2W.”

When asked about the combination of two of Epicor largest, most established partners, Lisa Pope, President of Epicor U.S., had this to say. “Our partners are an important extension of the Epicor business, and this is a great example of the strength of our channel. We are fortunate to have such a talented group of solutions-focused professionals at 2W Tech and MIS coming together to support our hardworking customers with Industry ERP Cloud solutions that help solve their unique challenges.”

Along with the addition of the new clients, 2W Technologies, INC will add the experience and expertise of MIS’s most senior Epicor Consultants. 2W Tech will begin transitioning the clients over immediately and are working to make this process seamless for all involved.

About 2W Technologies, INC

For over 30 years, 2W Technologies has helped hundreds of clients across North America maximize their Epicor and technology investments. Outside of being an Epicor Platinum Partner and Microsoft Gold partner, they also specialize in managed services, Microsoft cloud, data analytics, cybersecurity, and several types of Infrastructure solutions.
