FOR IMMEDIATE RELEASE

2W Technologies, INC Announces Microsoft Gold Certified Partnership

Pewaukee, WI – July 27, 2018 – 2W Technologies, INC today announced that it has earned Microsoft Gold Certified Partnership status. By awarding this highest partner status, Microsoft recognized 2W Tech for delivering leading Microsoft solutions that help companies share, collaborate, and improve productivity. This fact highlights 2W Tech’s increased technology competency and customer commitment. 2W Tech has been a Microsoft Partner for over 25 years and provides IT Infrastructure, Cloud, Managed Services, and Epicor ERP solutions.

CEO and President of 2W Technologies, Mark Jamieson, has been making several moves to expand the Microsoft solutions expertise his staff offers. “Whether it is Microsoft Azure or Office 365 solutions, we see a great deal of value in what these Microsoft solutions are capable of providing to a business. Achieving Gold Status is a major step for us and we are honored to be recognized. To our business, this not only means we have the technical capabilities required, but also the right people and vision required to serve the market at the highest level. Our dedication to both Microsoft and our clients will continue to expand and we look for bigger and better things to come in the future.”

About Microsoft Gold Certified Partnership

Microsoft Gold Certified Partners are Microsoft's most highly accredited independent technical support providers and offer a comprehensive range of support for Microsoft and multi-vendor products. This support includes data management, software development, application development and others. Companies can get certified as a partner through a rigorous process that ensures proper use of licensing and equipment. Becoming a partner also requires the use of Microsoft technology as the primary platform for the company.

About 2W Technologies, INC

For over 25 years, 2W Technologies has helped hundreds of clients across North America maximize their Microsoft, Epicor and other IT investments. They have offices located in Milwaukee, Chicago, Erie, and Meadville, but have Consultants expanding their footprint even further than those areas in the Midwest and Northeast part of the US. Outside of being a Gold Certified Microsoft partner, Tier I Microsoft Cloud Solutions provider, Certified Epicor ERP partner, they also specialize in Managed Services and various types of Infrastructure solutions.
