

2W Technologies, INC Named to the Prestigious CRN Tech Elite 250 Again for 2026

Pewaukee, Wisconsin. March 17, 2026 — 2W Technologies, INC announced today that CRN, a brand of the Channel Company, has recognized 2W on its 2026 Tech Elite 250 list for the second consecutive year. This annual list showcases solution providers located in the U.S. and Canada who are dedicated to excellence. They stand out by achieving top-tier certifications and specializations from leading technology vendors in the fields of artificial intelligence (AI), infrastructure, cloud, and security.

To navigate the growing complexities of IT and the emergence of advanced technologies like AI, the solution providers featured on this list maintain elevated levels of training and certification from key IT vendors, often reaching the highest tiers in these vendors' partner programs. Whether serving as strategic service providers, systems integrators, managed service providers, or value-added resellers, these top-tier providers are dedicated to ensuring their clients' success.

"Congratulations to the solution providers named to CRN's Tech Elite 250 on this well-earned recognition of their commitment to advanced certifications and deep expertise in these critical technologies," said Jennifer Follett, VP, U.S. Content, Executive Editor, CRN at The Channel Company. "These organizations continue to invest in expanding their capabilities so they can deliver exceptional IT solutions that help their customers succeed."

2W began its journey as an Epicor consulting firm more than 30 years ago and has grown into one of the most respected technology partners in the industry. As a two-time Epicor Global Partner of the Year and a holder of multiple Microsoft solution designations, the company has seamlessly unified the strengths of both platforms to drive meaningful transformation for its clients. With deep expertise in Epicor on Azure, Epicor Custom Cloud, and a full suite of compliance solutions, 2W Tech helps organizations maximize the value of their investments in Epicor and Microsoft technologies. Their commitment to innovation also led to the launch of ResolveIQ™, their proprietary artificial intelligence platform. Today, with a broad portfolio of products, services, and strategic alliances across North America, 2W continues to strengthen its position as a leader in modern manufacturing technology.

"2W Technologies continues to push the boundaries of what's possible for Epicor customers," stated Brenda Nobleza, VP of America Channel Sales at Epicor Software Corporation. "Through their deep expertise in Epicor Kinetic and Prophet 21 and their forward-thinking use of AI-driven solutions, they are helping organizations reimagine how they operate, make decisions, and scale for the future. Their innovation and dedication to delivering meaningful transformation for our shared customers make them a standout partner in the Epicor ecosystem."

"Being recognized again is a powerful validation of the work we do and the trust our clients place in us," said Mark Jamieson, President and CEO of 2W. "The technology landscape is evolving faster than ever, and our team continues to rise to that challenge, earning advanced certifications, expanding our capabilities, and delivering solutions that truly move the needle for manufacturers. At 2W, we believe expertise is earned, not assumed. Every designation we achieve and every innovation we bring forward strengthens our ability to guide clients with confidence and deliver outcomes that drive long-term success."
