

## PRESS RELEASE

### CRN Names 2W Technologies, INC to Its 2021 MSP 500 List for Second Consecutive Year

**Pewaukee, WI. February 16, 2021** – 2W Technologies, INC announced today that CRN®, a brand of The Channel Company, has named 2W Technologies, INC to its 2021 Managed Service Provider (MSP) 500 list in the Pioneer 250 category for the second consecutive year. The list, released annually, recognizes the leading North American solution providers that have demonstrated innovative and forward-thinking approaches to managed services. CRN's 2021 MSP 500 list identifies the market's key managed services players who are setting themselves apart with best-of-breed solutions that provide the business outcomes customers need. The MSP Pioneer 250 recognizes companies with business models weighted toward managed services and largely focused on the SMB market.

Mark Jamieson, President and CEO of 2W Tech, was thrilled to learn of this repeat recognition. "2020 was a difficult year for everyone, our business was no exception. We persevered because we have built a well-rounded and talented team that arose to the challenges we were faced with. We rallied around each other and made the necessary changes to provide the same level of commitment and professionalism to our clients they have come to expect. We continue to work hard to find the best solutions available in the market and make those solutions better for our clients. If the last year has taught us anything, it is that the technology landscape and speed of adoption can be unpredictable at times and only those that are one step-ahead and excited for the evolution will survive. We will not only survive, we will thrive, and we will bring your business along for the ride."

"Effective MSPs enable companies to focus on their core objectives while improving the quality and reliability of their cloud computing capabilities," said Blaine Raddon, CEO of The Channel Company. "The solution providers on CRN's 2021 MSP 500 list deserve recognition for their innovative and forward-thinking approaches to managed services, and the ability to optimize operational efficiencies and systems to maximize return on investments."

The MSP 500 list will be featured in the February 2021 issue of CRN and online at [www.CRN.com/msp500](http://www.CRN.com/msp500).
